

KARSCI VINCZE CESPEDES

Cagayan de Oro City, Philippines | Cespedes.vincze@gmail.com | [linkedin.com/in/karsci-vinczecespedes-454851251](https://www.linkedin.com/in/karsci-vinczecespedes-454851251)

PROFESSIONAL SUMMARY

Cum Laude Data Science graduate with hands-on experience across the full data lifecycle — from pipeline design and data cleaning to exploratory analysis, predictive modeling, and stakeholder reporting. Proficient in Python (pandas, NumPy, scikit-learn) and SQL, with applied exposure to supervised/unsupervised learning and deep learning. Proven ability to translate complex datasets into clear, decision-ready insights for both technical and non-technical audiences.

EDUCATION

University of Science and Technology of Southern Philippines (USTSP)
Bachelor of Science in Data Science, Cum Laude — Major: Computer Programming

Cagayan de Oro City, Philippines
2021 – 2025

TECHNICAL SKILLS

Languages & Libraries: Python (pandas, NumPy, Matplotlib, scikit-learn), SQL
Machine Learning: Supervised & Unsupervised Learning, Deep Learning, Predictive Modeling, AI Data Annotation
Visualization & Reporting: Tableau, Matplotlib, Stakeholder Reporting
Platforms & Tools: AWS, SAP Analytics Cloud, AppSheet, Kaggle
Other: Database Management, Data Integrity, Business Process Analysis

RELEVANT EXPERIENCE

Greenergy Development
Business System Analyst

Cagayan de Oro City, Philippines
August 2025 – Present

- Designed and deployed data capture systems to collect operational metrics, enabling structured analysis and performance monitoring across business units
- Conducted exploratory data analysis (EDA) to surface process inefficiencies, translating quantitative findings into strategic recommendations for management
- Built and maintained business databases and data pipelines, ensuring data quality, consistency, and availability for downstream analytics and reporting

University of Science and Technology of Southern Philippines
Part-time Instructor

Cagayan de Oro City, Philippines
August 2025 – May 2026

- Taught undergraduate coursework in Python, data structures, and data science fundamentals to aspiring data professionals
- Designed assessments evaluating students' ability to apply analytical methods and write efficient, well-documented code

Klatch Technologies
AI Annotator

Remote
March 2025 – June 2025

- Produced high-quality labeled training datasets for supervised machine learning models, maintaining accuracy standards critical to downstream model performance
- Applied domain expertise to develop and refine annotation guidelines, ensuring labeling consistency across large-scale datasets
- Partnered with AI development teams to incorporate model evaluation feedback and iteratively improve dataset quality

Department of Science and Technology (DOST)
Planning, Monitoring & Evaluation Intern

Misamis Oriental, Philippines
February 2025 – May 2025

- Audited and cleaned government operational databases, resolving integrity issues and improving data reliability for institutional decision-making
- Developed and presented data-driven reports to senior stakeholders, distilling complex database findings into clear, actionable insights
- Assessed monitoring and evaluation frameworks, recommending improvements to data collection methods and KPI reporting processes

CERTIFICATIONS & CONTINUOUS LEARNING

- Kaggle: Machine Learning & Data Science Certificates
- AWS: Introduction to Generative AI
- SAP Analytics Cloud and SAP Build Apps
- DataCamp: Associate Data Scientist Path (in progress)
- Python Certificate
- Programming Fundamentals Certificate
